

**President's Report  
Conrrado Saldivar  
March 2022**

- Chatted with Katrina and Kate about the open positions. A slate for VP and Secretary/Treasurer will have to be voted on by the membership.
- Stepped down as Chair of the EDI Committee and appointed Eva Dahlgren and Leah Shlachter as Co-Chairs (both Teton County Library).
- Downgraded our Zoom account. We were still paying for 5 licenses from the conference (\$75/month). Since there have been no conflicts with committees needing to have Zoom meetings on our account, it's now set for just a single license (\$15/month).
- Sent a list of library directors to EveryLibrary. They are in the process of individually contacting all of them. They also asked for a list of Foundation contacts. Currently working on setting up a first meeting to start Phase 1 of the project.
- Assisted some libraries with paying for the Intellectual Freedom project. Six have either processed their payments and membership renewals, or are in the process of doing so.
- Authorized payment of our first of three EveryLibrary invoices.
- Held an initial meeting with the Program Subcommittee. Goals were initial introductions, discussing timelines, what worked in the past, and what didn't work.
- Conrrado, Kristin, and Abby are working on getting more access to our financial accounts. These accounts need proof of who can access accounts via Board minutes (New Business).
- Signed off on WLA being the fiscal agent for upcoming State Library training. WLA is essentially just the flow through of funds, to total \$15,000. WLA is in the process of paying the invoice, and WSL is moving funds from their account into ours.
- Accepted \$5,000 from the State Library for EDI training offered by the EDI Ad hoc Committee.
- Met with a rep from StarChapter. They provide a membership management service/website platform like Wild Apricot. If those who have more experience with Wild Apricot would like, I can request more information.
